Exhibition: Women's Work

Image courtesy of the Ditchling Museum of Art + Craft

What: 20th century, female designers have long been overlooked for their male counterparts – this new show at Sussex’s Ditchling Museum of Art and Craft shines a light on the work of craftswomen who ran successful businesses in the 1920s and 1930s. The exhibition showcases more than 100 pieces, looking at a broad group of makers, including textile designer Enid Marx, weaver Elizabeth Peacock and potter Denise Wren. The show will look at their work in context of the two World Wars, examining how the likes of silversmith Catherine Cobb monopolised on the demand for stainless steel cutlery after the war years. The craft show is accompanied by a series of hands-on workshops and events, including ceramics moulding, block printing, clay jewellery making, hand stitching and material dyeing sessions.

When: Until 13 October 2019.

Where: Ditchling Museum of Art + Craft, Lodge Hill Lane, Ditchling, Hassocks BN6 8SP.

Info: Entry to the exhibition is included in museum admission, which costs £6.50. Head to the [Ditchling Museum of Art + Craft](#).
